## Welcome CAMPERS!

It's catalog time again! And it's a return to form of sorts. Way before SKIN GRAFT was a record label - it was a comic book... of the 'zine variety. From 1986-1992, SKIN GRAFT was a kingpin in the burgeoning small press scene. The comics were drawn double the printed size, then whisked off to the copy shop - each page reduced and then pasted up, four pages to a double-sided 8 1/2" x 11 sheet. The ready to print mock up would be photocopied hundreds of times, the pages collated, folded and saddle-stapled - - And finally sold, traded or given away. If you'll allow me to romanticize, this was the Do-It-Yourself attitude of punk in action. The tools of our drawing board revolution were x-acto knives, glue sticks and white out. The sharpie as guitar and photocopier as amplifier. Our weapon, soap, thrown at stinky comic book fans at Comic Book Conventions around the country.

Today's young self-publisher has a lot more options - what a difference a low end scanner and some software can make. With few exceptions, this catalog has been assembled the same way the old SKIN GRAFT comic books were. Drawing (or in a lot of cases, re-drawing) those album and cd covers struck me as a lot more appealing than sitting hour after hour at the helm of the Adobe Photoshop this summer.

I've finally garnered an appreciation for the paste-up line.

ENJOY!  
- Mark

## CAMP SKIN GRAFT

**"Now Wave" CD w/ VINYL STICKER / GR50 / CD \$12.00**

NOW WAVE is the name of our compilation and it's Weasel Walter bitching about how he can't tour 'cuz he's in too many bands. It's Al Johnson calling headquarters to inform us that the van's on fire in Portland. It's sending T-shirts to Sarah Becker at MTV's The Real World. It's Thymme Jones concluding that it's more sensible to live in his car. It's Nick Sakes cooking everything at once. It's Jim O'Rourke vocalizing for L.O.D. when Marlon had mono. It's Captain Insect building robots in his apartment. It's Billy Sides wanting to finance the Miss High Heel CD with a credit card. It's YOU FANTASTIC! playing simultaneously in two cities. It's the wrong RUINS dat. It's John Forbes drawing Kame Bazooka fucking an apple. It's ZENI GEVA's equipment - stolen in Warsaw. It's

Chuck Falzone growing a mustache and dying it blonde. It's 35 people playing Minneapolis for \$135. It's German's eating dollar bills to prove a point. It's THE SCISSOR GIRLS breaking up. It's lighting a member of the audience on fire as he leaves the club. It's lending the television to STRANGULATED BEATOFFS. >>> Here's the place to start! 33 bands / 33 tracks! Lot's of exclusives and rarities. The greatest of hits from U.S. MAPLE, THE FLYING LUTTENBACHERS, LAKE OF DRACULA, ZEEK SHECK, YOU FANTASTIC!, STRANGULATED BEATOFFS, MOUNT SHASTA, FLOSSIE and THE UNICORNS, COLOSSAMITE, RUINS, SHAKUHACHI SURPRISE, AKATEN, ZENI GEVA, SCISSOR GIRLS, MR. ## BRISE-GLACE

**"When In Vanitas..." GR17 / CD \$12.00**

BRISE-GLACE is the "cut-up" band formed by Jim O'Rourke (Gastr Del Sol, Yona-Kit), Darin Gray (You Fantastical, Dazzling Killmen), Thymme Jones (Cheer Accident, You Fantastic!) & Dylan Posa (The Flying Lutenbachers, Cheer Accident). In the tradition of CAN, THIS HEAT and FAUST, BRISE-GLACE is as much about deconstructing the functions of rock music, as it is operating as a rock band. Shifting moods and temper, BRISE-GLACE masterfully interweave disparate introductory "scenes" that simultaneously challenge expectations and question definitions. Also featured are Henry Kaiser, Chrisoph Heeman (HNAS) and David Grubbs. "The most intriguing rock music of the 90's so far" - the WIRE

**"In Sisters All And Felony" / "Angels On Installment Plan" GR15 / 7" & comic book \$6.00**

The hit single. Two non-Lp tracks, a Goofy Goose cover and very funny comic by Dylan Posa and Rob Syers. Don't miss this one.

## COLOSSAMITE

**"Economy Of Motion" GR55 / LP (Italian Import) \$10.00 / CD \$12.00**

How does a band like Minneapolis' COLOSSAMITE fit into the scheme of things happening in music today? They don't. They ignore convention and do things their own way - with a collective mind set of ingenuity and integrity. On Economy Of Motion, Colossamite has ripened. The writing was completed just days before entering the studio, some of the lyrics were composed hours before the first take. Nobody really knew HOW it was going to turn out...! It has an edgy, spontaneous feel. The vocals are eerily near. The guitars duel with and respond to one another. There's no explaining what time signatures Chad is playing in; his cymbal crashes just HANG there, and by the time the smoke clears, the band is heading down a forked road that didn't even exist two seconds ago. Reactions from those privy to the advance tape, have ranged from "horrifying" to "heartfelt" to "hilarious". It's got a soothing, paranoid, nervous, scratchy, jazz-rock (in a very literal sense), gut wrenching feel to it. "Economy of Motion" is a compilation/mix tape gone awry. The ingredients have blended into a rare encounter - music that is strident and honeyed, built of unorthodox twists and turns, but also wholly memorable and absolutely lasting. Colossamite is the meeting ground of hardcore, "noise", sophisticated improvisation-- and so much more. This, folks, is the hereafter... post-jazz-hardcore stew, indeed.

**"Frisbee" GR48 / CDSINGLE & FRISBEE \$8.00**

How 'bout this for a nifty way to cap off the summer? Two dynamic discs sure to wash away those impending Fall "blahs"! Secured in a windowed paper sleeve, disc one features three new songs "Camera Within", Boorman 6 Girl and "Imagine Among The Light" (a tribute to the late Die Kreuzen!). All 3 songs are exclusive to this release! Disc Two is a colorful COLOSSAMITE Frisbee! 10 different colors in all (limited to 100 of each!) with teal and silver printing! Minneapolis' COLOSSAMITE are Nick Sakes (formerly of DAZZLING KILLMEN), Chad Poppel and Ed Rodriguez (of THE ICEBURN COLLECTIVE) and John Dieterich (Who along with Chad and Ed completes the GORGE TRIO). The music? Well, "Frisbee" finds COLOSSAMITE at a crossroads, between the progressive, hardcore hypnotics of their debut "All Lingo's Clamor" and the more intuitive, confounding sound of their upcoming full-length "Economy Of Motion". Start spinning!

**"Gusts Of Lead" split 7" w/ WHITE TORNADO / FREE04 / 7" \$ 5.00 (FREELAND RECORDS)**

IMPORTED FROM ITALY! Minneapolis' COLOSSAMITE released their debut CDEP on SKIN GRAFT last year and ever since, EVERYONE's been clamoring for more. I'm here to tell ya, it's coming in a big way! This split single (cover courtesy of AmRep's Tom Hazelmeyer!) is the first lick since their debut. WHITE TORNADO are from Italy. They rock, toured a good hunk of Europe with U.S. MAPLE and have bizarre shirts.

**"All Lingo's Clamor" GR43 / CDEP \$9.00**

From the sands of Minneapolis, Nick of the former DAZZLING KILLMEN, Ed and Chad of Revelation Records ICEBURN COLLECTIVE and experimentalist John Dieterich exhale a kaleidoscope of guitars, texture and excess. COLOSSAMITE is amassing an awesome mixed bag of a following - from straightedgers and hardcores to skaters to music concrete fanatics, by perpetuating the ethics of punk, without aping the sounds of yesterday.

## DAZZLING KILLMEN

**"Recuerda" GR36 / CD \$12.00**

The Lounge Ax cassette, the singles, unreleased gems and about 20 cub scouts... 76 minutes of vociferous emanations of rage, with an underlying delicacy to fill the spaces between heart attacks. The neglect no longer becomes you.

**"Face Of Collapse" GR12 / CASS \$7.00 / CD \$12.00**

The world's premiere hardcore-prog-rock band. Swirling, precise compositions that hit the bricks every which way. DAZZLING KILLMEN continue to pick up momentum long after their break up, influencing a new generation of bands sporting jackhammering multiple personalities. "I've seen a lot of bands in my day, but DAZZLING KILLMEN were without a doubt, the best live band I have ever witnessed. The whole time I stood there with my mouth hanging open... How do they play that?" - Coptic Times. Recorded by Steve Albini.

## DENISON KIMBALL TRIO

**"Soul Machine" GR22 / CD \$12.00**

THE JESUS LIZARD's Duane Denison and Jim Kimball come out swingin' and cover all the bases on their sophomore release. The DK3 are joined by fellow LIZARD David Wm. Sims on keys. Reg Shrader on bass and Ken Vandermark on sax to create a sprawling soundscape that far exceeds any easy label like "jazzcore", and shows an understanding of ambience that belies their rock roots.

**"Walls In The City" GR16 / CASS \$7.00 / CD \$12.00**

The soundtrack debut. The hi-ball, low brow Now sounds played by outlaws - melody, harmony and rhythm presented in a simple, yet elegant manner. A fleeting glimpse of sonic events in temporal succession.

## THE FLYING LUTTENBACHERS

**"Gods Of Chaos" GR46 / CD \$12.00**

LOOK OUT! T.F.L. record on 9 planets for the most extreme sound yet! Intense, uncompromising music that effortlessly blasts down the stylistic barriers separating free jazz skronk, hardcore punk and grindcore / black metal fury. "Gods Of Chaos" is an astoundingly detailed and ambitious work, a 45 minute epic that musically illustrates the events leading up to the end of the human race. Includes a brain burner poster booklet and immaculate production. Sorry punists, this one was absolutely impossible to master to vinyl! We're gushing - All over the place!

**"Revenge Of The Flying Luttenbachers" GR37 / LP \$9.00 / CD \$12.00**

From ear-shredding noise to tight harmolodic percolations, free jazz fury to no wave gridlock, this one pulls out all the stops with walls of white noise, guitar-driven, scattered, screeching punk jazz for the BlackMetalHead lurking within! Imagine Derek Bailey, Immortal, No New York and Fushitsusha all rolled up into one. One of GUITAR PLAYER Magazine's Top 25 albums of the year!

**"Destroy All Music" GR51 / LP \$9.00 / CD \$12.00**

The sound of total Punk Jazz destruction!!!!!! TFL's infamous third album finally appears on CD, digitally remastered for MAXIMUM audio-annihilation hit points! It's 1995. The Chicago No Wave assassin squad (S Ken Vandermark (Vandermark 5, NRG Ensemble), Dylan Posa (Brise-Glace, Cheer-Accident), Jeb Bishop (Vandermark 5), Chad Organ (Royal Trux-ter) and band leader Weasel Walter (Lake Of Dracula, Halewave). Duck! "Destroy All Music" was recorded all over Chicago - Attica & Ug Explode Studios, with a track apiece from Lounge Ax and Czar Bar by E. Dickel. The result - a wild amalgam of Free Jazz energy playing, noisy experimentalism and chaotic punk iconoclasm. Frighteningly unclassifiable, far ahead of the pack and a telling forecast of things to come.

**"Constructive Destruction" QU06 / CD \$12.00 (QUINNAH Records)**

Call 'em NOW. Call 'em NO. just get 'em or get lost. The second LP and the first to feature the quintet line-up - Mr. Weasel Walter plus Chad Organ, Ken Vandermark, Dylan Posa and Jeb Bishop. A 45 minute burst of punk jazz adrenaline.

A compilation of tracks spanning the years 1991-1996! The first two long out-of-print eps appear in a remastered form, the "solo Weasel" period is collected, rare compilation tracks are compiled, and three previously unreleased archival cuts are at last sprung, including a track from the original incarnation with the late Hal Russell (NRG Ensemble). On Quinna Records.

**LAKE OF DRACULA**

**"Lake Of Dracula" GR39 / CD \$12.00**

The NOW WAVE ATTACKS! L.O.D. layer vicious, angular guitar and obtuse, howling vocals over propulsive, throbbing dance beats in an unprecedented melange of excitement and alienation! A veritable supergroup of veteran agitators from the Chicago No Wave scene, L.O.D. is Weasel Walter (THE FLYING LUTTENBACHERS), Marlon Magas (COUCH), Heather Melowic (SCISSOR GIRLS) and The Manhattanite (?). LAKE OF DRACULA drive a wooden stake deep into the heart of the palpitating grunge / alternative / indie-rock / bogus-punk dinosaur! Would you believe they were Chicago's top "Buzz Band" on MTV on-line? Us either. Don't let that scare you.

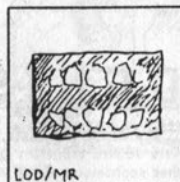

**"Fireside Four (aka Live At The Fireside Bowl)" SIN01 / 7" \$5.00 (SIN RAFT Bootlegs)**

**MELT-BANANA**

**"Scratch Or Stitch" GR34 / CD \$12.00**

Plot In A Pot(?): Tokyo's maelstrom of experimental heart surgery, blend a blunder for which you must answer. All of the scrabbling atonal dissonance of no wave bathed in the hysteria and acceleration of hardcore and speed metal. MELT-BANANA walk on water and juggle all of those sharks that think they are swimming in new unexplored territories. If that's not enough for you, well... then back in your cave Grogar, tonight's going to be chilly. Produced by Jim O'Rourke and Steve Albini, with contributions by Jim and ZENI GEVA's K.K. Null.

**"It's In The Pillcase" / "Picnic In Panic" / "Rush And Warp" GR24 / 7" & comic book SOLD OUT**

# MOUNT SHASTA

## "Watch Out" GR52/LP \$9.00/CD \$12.00

MOUNT SHASTA is back to put the BOOM in your box! Produced by ummm... "Debbie" Albini in his awesome new studio, "Watch Out" sports so many hit's you'll be bruised all over! Here's what Alternative Press has to say: "The original architects of punk had envisioned that their bastard child would be a grating mouthpiece to annoy the piss out of adults, and although it may seem as simple as farting in church, it's really an inexact science. Skronk alchemists Mount Shasta have the formula ...(!). "Barb and The Sailors" opens a barn door to wailing insolent guitars that refuse to exist with the funk-friendly harmony established rhythmically. Guitar motives leap awkwardly from the depths like colorful splashes indiscriminately looged onto an abstract painting... The breathtaking "Bi-Curious" lowers the standard by which all power riffing should be slugged and features a guitar solo so silly that former Brainiac frontman Tim Taylor is tossing off in his grave". Like Bo Diddley on cough syrup, "Watch Out" will get your booty on the speaker! Just don't forget to put your weight on it!

## "Who's The Hottie?" GR31/CD \$12.00

Open your heart and unzip your fly, this one's goin' right into your pants and not because you're trying to steal it! MOUNT SHASTA put the creep all over you and tear around the house with their underwear on their heads. Hanky panky, guitar wanky, wild lust in the dust, rollin' in the mud, snoggin' in the swamp and lickin' in the kitchen, PLUS a little zonkin on the Hammond B3 and trombone! Did you know that "Who's The Hottie" has been accidentally purchased by numerous confused losers and chumps seeking Hootie And The Blowfish? Make the same mistake - Live it!

## "Put The Creep On" GR13/LP \$9.00/CASS \$7.00/CD \$12.00

A bit like a pulled groin at a nudist colony. Somebody's always left cleaning up after the fat man. Features U.S. MAPLE's Al Johnson on guitar and backing vox and Steve Albini's accountant, Dave Duvall, on "Sanford and Son" vocals. The feel up / feel good album of the year!

## "Nodule" / "Sleeping Fugly" GR05 / 7" & comic book \$6.00

A barnyard of animal magnetism. "Nodule" is a tale of psychosomatic illness coupled with an ongoing steroid problem. "Sleeping Fugly" is a ponderance of body charms in everyday life. Barely produced by Casey at 1dful and the Forbes Fischer / Grzeca / Syers comic book is major-minor masterpiece if there ever was one.

# RUINS

## "Refusal Fossil" GR45/CD \$12.00

Japan's RUINS have extensive experience and a tireless commitment! For over a decade they have decimated sleepy ears with a furious barrage of explosive and intricately composed drum and bass. Ruins cover all stops between hardcore's hysterical inscription, free jazz's confounding inscription and the operatic drama of progressive rock. No slack. No slop. Absolute masters of quick change, stop-start tempos and time-signatures, Ruins craft an unprecedented amalgam of originality, all sung in a peculiar language of their own invention. "Refusal Fossil" contains new recordings of previously

unreleased tracks, plus live performances with guests from all walks of Japan's prolific musanteum. Twenty cuts in all- produced at Ruins own Magabutsu studio for their most massive sound to date! An hour-long blast of zig-zag calisthenics!

If this isn't one of the most amazing packages you've seen, young Billy Sides will eat his shorts!

# SHORTY

## "Fresh Breath" GR14/CSEP \$5.00/CDEP \$8.00

A sinus cleaning din that flips you upside down, shakes the keys from your pockets and then drops you headfirst to the astroturf. "One time when I was little, there was a tomato fight at my house. The tomatoes were green and small... hard, like billiard balls. Things got pretty out of hand. My mom tried to break it up. She ran out into the middle of the yard and started screaming. The kids turned on her and she was hit with what seemed like a spray of green aerosol. I too turned on her, though I felt sorry for her... She pivoted and retreated toward the house - broke a heel and carried the shoe with her". - Al Johnson. Their swan songs. Sniffle. Guest vox on "Really Pointy" by MOUNT SHASTA's John Forbes!

### "Kaputi" / "Hot For Teacher" GR07 / 7" and comic book \$6.00

Full length (pre- U.S. MAPLE) filled with tics and tourettes syndrome fits and diseased elephant guitar. The giddy bible to the sp.c.y fingered and bright. "The record Albini was born to produce" - LEGION 2. Imported from Germany.

Hard to understand. Harder to ignore.

### "7-Toku" GR18 / LP \$9.00 / CASS \$7.00 / CD \$12.00

The landmark second album. Total "cacophony concentrated" as Captain Insect, Kame Bazooka, Screaming Stomach and Karate Condor get their gadgets stinking drunk off electrical overload and watch them malfunction. The most unmusical of sounds are sped up, mutated and layered to collide and make a melody in spite of themselves. Kick Ass, Catchy and FUN!!!

### "Sexual Aesthetic Salon" / "Complaining Children" 7" & comic book SOLD OUT

Tokyo's sugar crazed Nintendo machine hits overdrive, blurring the line between man and machine in the race to the last groove. Wondrous right-to-left manga by Kame Bazooka. Produced by K.K. Null. Back in stock in '99.

## STRANGULATED BEATOFFS

### "Self-Titled" GR49 / LP \$9.00 / CD \$12.00

Comeback of the year! On every dance floor from here to eternity, St. Louis' STRANGULATED BEATOFFS effortlessly dig a lock groove into the collective soul! With their flowing long blonde hair and unique take on life, the Beatoffs have been recording for over a decade. Stan Seilrich is the founding member of the legendary "pig-fucker" band DRUNKS WITH GUNS. He smokes pot and listens to K-SHE 95. Fritz Noble plays tennis and hockey. He lives (and quite well, thank you) with his mom. Here's what Rollerderby's Lisa Carver has to say about Strangulated Beatoffs: "The music certainly doesn't get me thinking - it has the opposite effect. And I can't remember it after it's over. I caught myself with my mouth drooping open one time after listening to "Beat Me With A Rump Roast". I also fell asleep in the middle of the day once listening to a tape of their old singles. The music causes the same reaction in me that orgasms do, which is exactly the same as the one I get when I stand up too suddenly and my anemia's kicking in and everything goes starry and there's no time or limits and lots of things are going on but I can't remember what they were when I come back into my body and I'm on my knees hugging a wall or something. Maybe the Beatoffs aren't exactly like that. Close enough though." Fresh? It's what the DJ's listen to at home!

Beatoffs

days of our lives

"Days Of Our Lives" DBB01 / CD \$13.00 (PITTSBULL DBB)

MADE IN BELGIUM and finally available stateside. After releasing singles on various labels (SKIN GRAFT, GLITTERHOUSE, FORCED EXPOSURE, etc) STRANGULATED BEATOFFS stepped up to deliver their full-length debut in 1994 on Belgium's Pittsbull records. This release was barely available in the U.S. and we are tickled pink to put it in your hands. "Days Of Our Lives" marks a maturation in the BEATOFFS direction, advancing their ideas into a more spacious ambient territory. Today this sounds more vital than ever and will have you staring into space and rocking in place! "The edgiest chill out record of the year... simply magic". -NME.

## U . S . M A P L E

"Sang Phat Editor" GR44 / LP \$12.00 / CD \$12.00

Apocalypse NOW! U.S. MAPLE are about songs and not the sum of parts. "Sang Phat Editor" is a reference story that melts, pops and explodes - and on stage, these tales are told a bit differently night after night - a blueprint to the history and workings of an entirely new direction. The gorgeous LP is limited & includes an extra track, poster, sticker, die-cut sleeve and postcard. CD is wicked ass too! Check THIS out >: "So far ahead of it's time that it can only communicate with itself... If life truly is meaningless... U.S. MAPLE are God". - Alternative Press. Produced by Jim O'Rourke. Our first Academy Award winner. What's the world coming to...? This.

"Long Hair In Three Stages" GR33 / CD \$12.00

Rock And Roll... Re-Ap'd! U.S. MAPLE's debut LP of disjointed machinations, oddly poppy locksteps and jarring sideways excursions was the top ten king of '95 / '96. Produced by Jim O'Rourke. The aluminum-sleeved LPDELUXE is SOLD OUT!

"Stuck" / "When A Man Says Ow" GR19 / 7" clear vinyl single \$6.00

Take four cubes from the fridge (Icy Al and Mark formerly of SHORTY and chilly Pat and Todd - ex MERCURY PLAYERS). Now water as the room's temperature moists each into four separate & individual messes. Hmmm. Ice cube colored vinyl & gamey packaging in which you make the rules.

"The Wanderer" SB29 / CD single \$6.00 (SONIC BUBBLEGUM)

Don't kick your CD player to 45 - The DION song b/w "Woah Complains". Guested by AZ (Last of SG's) and two horns. Pretty Yellow.

## Y O N A - K I T

"Yona-Kit LP" GR20 / CD \$12.00

A whale of a record uniting the BRISE-GLACE ensemble with ZENI GEVA's K.K. Null! Light-hearted and dark, YONA-KIT rocks way more than one might suspect! Contrapunctual interlo-interplay, stuttering time signatures, progressive rock, avant-experimentalism, hardcore, ambient-metal, Albini's gear, it's all here! Guest vocals by MELT-BANANA's Yasuko O. The Boogie Switch in Full-Effect! Hot & Serious and Chiller Whale puppet cover!

# YOU FANTASTIC!

## "Homesickness" GR56 / CD \$12.00

YOU FANTASTIC!s first album is finally here! Recorded over the last 4 years all over the country, "Homesickness" is a tale of failure, paranoia, heartache and the obstacles facing a "geographically-challenged" band. Super-lush instrumentation abounds - it's all here, bass blurps, guitar washes, brass aplenty, violin and keys, and yes, disjunct rock! Truly a heart-breaker with a sense of humor, 70 minutes and 22 tracks from Thymme Jones, Darin Gray and Tim Garrigan and a wild assortment of pals. This is the one YOU've been waiting for... simply FANTASTIC!

## "Pals" GR42 / Extended CD single \$8.00

Feel friendless? Pals will help! A gloomy vista is erected stone by stone until, like a house of cards, the whole scene comes tumbling down and folds into an entropic hush, haunted by the memory of the site. One song. Who's got Pals? We've all got Pals. We need pals to bum a nickel from. We need Pals to tell our secrets to. We need pals to eat a hamburger with!

## "Riddler" GR38 / CDEP \$9.00

On YOU FANTASTIC!s glorious debut, you are left to ponder the answers, and the band promptly goes about changing the questions. Anchored by the phat-est of beats, "Riddler" is a series of bewildering backslides. Guitars flutter in a downward spiral, thick-string sounds dig deep and brass bellows across a shifting landscape populated with inexact echos and tracers. If you mourn the loss of BRISE-GLACE, ask yourself this. Darling artwork introduces Curious Brown, son of Serious.

## "Riddler 2.3.4" RT 04 / 7" single \$5.00 (RESORT THEORY)

\* Shhh... is that music? \* Hand made covers - cabbage patch kid for '97 that extends the ponderings initiated on their debut Limited! (!) WARNING (!): Play with caution - This record destroyed SKIN GRAFT's speakers!

# ZEEK SHECK

## "Good Luck Suckers" GR53 / CD \$12.00

With "Good Luck Suckers", the new CD from Miss ZEEK SHECK and The CLOUD PEOPLE, the jungle drops in your living room! Zeek brings the beat, you're the drum! Don't leave your astral body at home though, there's much more than just a dance party going down. Both elegant and goony, computers, brass keys, voice and strings - swing and sting along a flourishing landscape... where beepers "beep" and cyclotronic gliders "buzz". The press has likened Zeek to This Heat, Death In June, Nurse With Wound, Renaldo And The Loaf, Brise-Glace, Merzbow and Richard Youngs and her relentless touring is making converts out of goths, noiseheads, clubkids, performance artists, punks and even post-rockers! Zeek's band this time out includes Monica Bou Bou (Bobby Conn), Thymme Jones (You Fantastic!, Cheer Accident), Liam Hayes (Plush), Michael Colligan, (The Flying Luffenbachers) and Fred Longberg Holm (Knitting Factory Works) to name a few. Take our word for it, once you lick "Good Luck Suckers", you're stuck!

## "Good Luck Suckers Remix LP" GR53 / LP (Italian Import) \$10.00

Think you've heard it all? Nope. Here's the story told from a completely different perspective. A few of the songs from the CD radically remixed and a whole bunch of new tracks! Awesome cover art by Zeek! Manufactured by our pals at Freeland in Italy.

## "I Love You" GR47 / CD \$12.00

Learn where to find the hottest sex in town and determine what the odds are that you'll be satisfied once the deeds are done. Frighteningly human musique concrete. Beautiful melancholy... askew and off-balance... organic electronica. Another fucking revolution, packaged with an EXTRA-LONG tray card!

## FLOSSIE AND THE UNICORNS

### "L.M.N.O.P. LP" GR54 / LP \$9.00

### "L.M.N.O.P. CD" GR54 / CD \$12.00

OK, for those of you still unfamiliar with Miss Pussycat - here's the scoop. She is a Class 'A', top notch, hardworking professional puppeteer in the tradition of such early television greats as Buffalo Bob and Howdy Doody, The Brothers Buzz & Kucia Fran and Ollie. SO how did she end up doing shows for unruly teenagers in American Rock and Roll Clubs and making hit records? Well that's a long story, but mostly because her little animal puppet friends are always starting bands! And if they are not in a band, then they are doing things like being DJ cardboard and teaching animals how to play a chord or being good little witches and starting record labels or being bad little witches and casting spells to stop drummers. It all started when 'Misses Beaver made some little guitars out of wooden sticks from her dam and the birds chewed up some huckleberries to make a dye to paint on the guitars neck'. L.M.N.O.P. comes in two terrific editions! On the CD you get non-stop musical hits like "Celebrity Biography", "Underwater Dance Club", "Foxy Face" and "The Men With A Million Records" plus two bonus puppet shows, including "Free Guitar Lessons For Animals"! On the LP, you can hear their incredible radio-play style stories plus their most popular theme songs! But who are Flossie and The Unicorns and what does it sound like? Uh, well Flossie and The Unicorns are the oldest and most well known official band in Miss Pussycat's roster. SO they get their name on the cover and take all of the credit (even though they are hiding out in the center of the earth right now (as you'll hear on the L.M.N.O.P. LP edition!). The music (sounds like...) like... furry animals playing dance music on little tiny guitars, eensy weensy drums and itty bitty synthesizers. Oh yeah, and if you are a musician, please don't try to figure out the "time signature" of this music - there isn't one. So simple and perfect, it's almost frightening - unless you are badger. ...And yes, the LP and CD are different. Buy each now.

## DRUNKS WITH GUNS

"Drunks With Guns" CD (Behemoth / BET 15 / CD \$12.00)

A reissue of the "TOTALLY FUCKING MUST OWN" CHOPPER LP, which in itself was a collection of the highly sought after 7"s, some of which made it to runs of 40. This is the original band - Stan Saiterich (also of STRANGULATED BEATOFFS) on guitar, Mike Doscozil on vocals and Mike Delon (FRUITCAKE) plays bass. The holy grail of "scum rock" and the roadmap for the "St. Louis" sound.

"7 Songs With Melissa" 2 x 7"

(Behemoth / BET05 / 2 x 7 \$7.00)

The first disc is lifted, rehashed (and slightly remixed) from 1990's epic Glitterhouse 7" single, the first to feature Melissa (AGE TW ELVE!) on vocals. The second disc was recorded at age 15, and includes a RAMONES cover...?

"Hippo Stomp -1" 7" \$5.00 (Pitabull / PBR04 / 7" \$5.00)

Split with Panty Boy Barely breaking a sweat, Stan Saiterich (STRANGULATED BEATOFFS) teams with the very young Melissa on the A-Side to bang out the Hippo Stomp. On the flipside, PANTY BOY do their best Mike Doscozil-era DRUNKS impression with the cut "Bitch". Strange...

## JACK SMITH

"Les Evening Gowns Damnees" CD (Audio Art/Kiva via Table)

The first in a series of vintage recordings featuring the protean performance artist filmmaker, & photographer. Recorded by Conrad between 1962-84, and accompanied by the likes of John Cale, Angus MacLise & Conrad himself, these pieces reveal an important facet of Smith's artistic legacy & offer a rare glimpse at one of that decade's most influential milieus.

## SOAP JOH HENSHI

Byon Da Go 7" (Scratch / SCR13 / 7" \$5.00)

Infectiously peppy Japanese weirdo girl power pop with a drivingly danceable rhythm section and curiously minty guitar work.

4-way split of UK bands featuring ASHTRAY NAVIGATIONS, COITS, REMORA, and GHOSTDAD (like the movie). Another slab in the "Triple Islands Trilogy" (!?) UK import.

## SPIN 17

On the Eastern front, Ed Chang (BLINDFOLD, DUAL, all-around composer/improviser extraordinaire) spins out his duo with girlfriend Motoko Shimizu. Enjoyed by young and old alike, SPIN-17 mix together the worst records from the Salvation Army nickel bin, Toys R Us' electronics department, Betty Boop's evil ghost, and some guitar and clarinet skreeee. Bake for 5 minutes and swallow quickly. Action!

(ICOR Recordings / ICOR 01 / CD \$13.00)

8 track disc blending the talents of Spybee (ZOVIE FRANCE, DOWNLOAD) and Theriault (VOIVOD). Spybee lays down loops of sound made from toys and bizarre instruments over Theriault's samples and beats. Comes in a hand made canvas pouch with original artwork. Signed and numbered by the artists.

## STAR VEHICLE

"Waltzes For You" 7" (Semiotic Idiot / SI 01 / 7" \$5.00)

Brings to mind early Simple Machines stuff w/ a Chicago No-ish stutter to slab you silly. The odd guitar flowage prevails. Hot.

## STOCK, HAUSEN & WALKMAN

"Broccoli / Stripper" (Eerie / EerTh08 / 7" \$5.00)

Crunchy trip-hoppy fun. Sampler in action.

## TAIRIKUOTOKO VS. SANMY AKUONNA

"Viva Young Florida" CD (MGC15 / MAGAIBUTSU / \$15.00)

Latest release from RUINS mastermind Tatsuya Yoshida's label VIVA YOUNG FLORIDA features Yoshida (on BASS!!!) with MONDE BRUITS' violinist Yuji Katsui, Atsushi Tsuyama (AKATEN, OMOIDE HATOBA) and the multi-talents of Koji Kido. Ultra-slick, stylized prog rockin' from the masters. Excellent, excellent stuff. Japanese import - unlike most previous Magaibutsu

releases this comes in a jewel case, with an obi too!

## TAYLOR

(Q-TAY / 2 x 7" w/ pretty packaging \$9.00 /

Chicago's TAYLOR have made up a heckuva pair of packages for their self-released and Steve Albini produced debut! Fans of SHELLAC & BIG'N will shit their pants! The double 7" includes black sleeves and gangable transparencies.....while the CD version boasts aluminum sleeves secured with a screw & a nut!

## TEENAGE JESUS AND THE JERKS

"Self-Titled" CD (Atavistic/ALP51/CD \$12.00)

No Wave? Hows about starting here? Lydia at her Lunchiest in the late 70's. One of Weasel's desert island pics in Tower Pulse, so you know you need it! A unanimous thumbs up!

## TO LIVE AND SHAVE IN L.A.

"Tonal Harmony" CD (BWCD03 / Betty Welcomes / \$9.00)

Introducing the new "glam" phase of TLSILA and the appearances of underground celebs Simeon (SILVER APPLES), John Morton (ELECTRIC EELS), and Bill Orcutt (HARRY PUSSY). A harmonizing UK import, limited to 500 copies.

"Where a Horse Has Been Standing And Where You Belong" CD (Western Blot / BWL701 / CD \$9.00)

All new CD release from hot-producer Tom Smith's (silver apples, hussy pussy) musique concrete fuckery ensemble! Twelve troublesome tracks are subjected to a severe jostling, resulting in sounds along the lines of those made during a cocaine whiplance through King Tubby's compressor's arse!

"30-Minuten Maennercreme" CD

(Love Is Sharing Pharmaceuticals / LISP 94601 / CD \$13.00)

A man to be reckoned with- TOM SMITH! This first epic CD of psychotic samplecore contains 70 minutes of bad FM stations, Satanic metal loops, spines scraping on harps, every sexual reference in the book, and 254 "Wooooow"s by one of the most devious minds on the planet. Features Adris and Bill of HARRY PUSSY. Hateful.

Helen Butte Vs. Masonna Pussy Badsmell CD

(Full Contact / FC 63235 / CD \$13.00)

Second CD. Standard band this time with Tom on vocals, Rat Bastard on bass, and Ben Wolkott on oscillation. "TLAS are the kamikaze kaze phalluses bailed beneath your bedsprings, cumming right up through your lesser omentum." -Greg Chapman

"Ride A Cock Over Horse" 7"

(Menlo Park / MPK7004 / 7" \$6.00)

Two live pieces of sonic trash grind by Tom Smith and Co. More sex references. Noise is dead. Cover art by AZ (SCISSOR GIRLS!)

Split with Ceramic Hobs 7"

(Betley W.C.D. / BWCD2 / 7" \$6.00)

Excellent pairing of Tom Smith's psycho sample-core mania with the psycho-dronay CERAMIC HOBS. Better than being touched by your doctor while laid out on the slab. UK import.

## TRUMANS WATER

"Aptogramma" CD (Justice My Eye / JME 06 / CD \$13.00)

Brand new album on the WATERS' own label, this, their sixth (official) record explores a heartier side of the no wave spazz-punk legends. Not as punky but kind of back to their roots, slower but constantly sporadic. Slightly offensive cover art.

"The 1st Dead Man Of Diluvia" 7"

(Wantage / WNT02-7 / 7" \$6.00)

Kirk found these in a box while moving. Long gone single from '95, released by a 12 year old kid. Limited quantities.

Tim Olive of NIMROD and Keith Parry of SUPERCONDUCTOR interplay beyond improv, veering beyond rock and into musique concrete and full-on spontaneous combustion.

## VACCINATION RECORDS

"Oh God Mother Blood" CD (Vaccination / VAC12 / CD \$9.00)

SKIN GRAFT is very pleased to offer the entire catalog from the splendid VACCINATION label. Elaborate packaging and oddball sounds are staples of Vaccination and this is the ideal splash for the uninitiated. 21 tracks in all from the CHARMING HOSTESS, IDIOT FLESH, RUBE WADELL, GIANT ANT FARM, FRANK PAHL, MUMBLE & PEG, NINE WOOD, etc. Those mourning RALPH Records will cry me a river. Recommended!

"Live At Fireside Bowl 10/5/96" 7"

(Vandalia Music Label / VML78 / 7" \$6.00)

I believe this was the last "short trip" to Chicago that XEROBOT made before relocating to San Fran. Brent Gutzeit stood with his arms folded and smiled while Billy Sides threw pennies at the audience. Limited copies of this bootleg slab of Now Wave madness.

## TATSUYA YOSHIDA

"A Million Years" CD (Magaibutsu / MGC12 / CD \$16.00)

That's far too long to wait for the BRAND SPANKIN' NEW solo work from our hero of RUINS and AKATEN! Syncretic retort, in the spirit of past projections, YOSHIDA sends everyone a new vision. A million ear revolution! A lovingly crushing, infinite idol, lifted up in a colorful shroud. Kind of poppy. Packaged in a lavish hand stamped rice paper sleeve over a full color six panel folder! WOW!

**"Drums, Voices, Keyboards & Guitar" CD**  
(Magalbutan/MGC06/CD \$16.00)

Rock honed raw. Early solo work dated '89-'93. Stone solid, worships space... 'Hot Welcomes', through a channel quickly defining lost ages. Savage praises abound. Everything is recorded live; no overdubs. No shit. Packaged in a jewel case and cool Japanese obi on the spine! 23 songs.

**OTOMO YOSHIHIDE**

**Sound Factory LP/CD**

(GENTLE GIANT/GG05/LP \$11.00/CD \$13.00)

The latest slab from the champion of Japan's GROUND ZERO - Using various methods of copying and outright electric gadgetry (turntables, harddisk recorder), Otomo flunks categories and voids definitions. Extraordinary sound manipulation from one of the most independent stylists in the "racket." Sonny keeps asking, "Where's the beat?"

**RICHARD YOUNGS**

**"Festival" CD**

(Table Of The Elements/TOELSC/CD \$13.00)

Contemporary British artist sculpts a sublime union of electronica, other worldly space rock, stone age folk and noise glockenspiel! An unusual record for sure.

**"Advent" CD**

(Table Of The Elements/TOELNR/CD \$12.00)

Youngs' first record finally on CD. A three-part composition - guitar, piano, voice, and oboe. This is simply great.

**"Kniah" (With Simon Wickham Smith) LP**

(Ignivomous/IG07/LP \$10.00)

One of the many collaborations from these two improvisers. This was NOT recorded on Jim O'Rourke's back porch last summer.
