Set your minds to 'boggled'...

"Hoarder of Operations" plays out like a crazed vision of rock being torn apart and reassembled into a new, furiously chaotic and unrelentingly discordant beast... It's notable too, how uninterruptedly enrapturing, these tracks are: even at their loosest and most deconstructed, they retain a passive, virile momentum, and there are points that begin to feel almost psychedelic, where Trull's repetitive, mystically atonal guitar lines mesh with the frenzied, syncopated grooving of Piechocki's drum work." - **FECKING BAHAMAS**

On their debut album "*Asbestos Mouth*" the band **TERMS** give equal weight to tightly composed precision and spontaneous discovery, weaving together bold new worlds where crunchy dissonant riffs and pulverant, skewed melodies collide and consort with syncopated thunderstorms of percussion.

Having served in acts such as Grand Ulena, Jitters and Yowie, **TERMS** is much more than just the sum of its parts... It is an ever-evolving an aggregate of incalculable expression.

"Danny Piechocki is ridiculous at drums." - **GNARLAXX**

"Guitarist Christopher Trull possesses the rare trifecta of unparalleled technique, endless creativity and excellent taste. He respects the instrument without succumbing to its pitfalls and pushes its sonic capabilities without the aid of effects."
