

SQUID PISSER

STREET DATE: JUNE 14TH, 2024

dreams of puke

In the wake of SQUID PISSER's "Vaporize A Neighbor" EP and Comic Book Set and "Vaporize A Tadpole" Collection comes "Dreams of Puke", the band's second full length album. Weighing in at a meaty 12 songs and cut at a lean 45 revolutions per minute, "Dreams of Puke" refuses to let up or let down - emitting climax after scintillating climax - a bounteous bouquet of dayglow viscera and tumor-filled sonic snot.

"Dreams of Puke" is the face ripping, dolphin-loving, anthropomorphized mountain of nuclear sludge intravenously injected with methamphetamines that listeners have been clamoring for. Tommy Meehan's use of effects pedals and sonic textures create a dense soundscape of intestinal debris, mortared with a grout of pus, goo, gummy candy and pure, unadulterated insanity. Meanwhile, Seth Carolina's all out, rage-fueled and categorically pummeling approach to slamming the beats down lays out a visceral scene of absolute intensity - a great white shark attack on The Mall of America.

Tommy explains "The writing sessions for this album resulted in about 100 songs... Demos, seedlings, and scraps were strewn about everywhere. Then Seth and I assembled them into a viable and tangible fruition. I tracked all of the guitars, bass, and vocals myself at Los Angeles' Castle Barf Studios. The drums we did at Sea Horse Sound downtown".

"Dreams Of Puke" is an aural DMT trip that will leave brains boggled. Its atonal anthems of slime are a kaleidoscope of brilliant, bespeckled rage that, in the end, will scalp the world & mutate the throne.
